Retrofit Coaching Service

Cut costs, build resilience, and protect your assets with expert energy efficiency and retrofit solutions

Support for Energy and Emission-Saving Retrofits

BCNPHA's coaching services help non-profit housing providers identify high-impact retrofit opportunities. By connecting people, data, funding, and assets, we support long-term building sustainability and greater tenant comfort.

How it Works

We support you at every stage of the retrofit journey:

- Energy benchmarking
- Energy audits and opportunity assessments
- Rebates and incentives
- Liaise with contractors and engineers
- Project coaching and monitor success

Types of Retrofits

Lighting, heating, ventilation, cooling, domestic hot water, and building envelopes.

Funding

We specialize in retrofit funding programs – from simple retrofits to deep energy retrofits. Please see the BCRA information sheet for more information on deep energy retrofits.

When to reach out

Contact us if you are experiencing:

- High energy use
- Retrofits identified in the building condition assessment or capital plan
- Equipment nearing end-of-life
- Equipment failure - or ideally, before it happens

Why Retrofit

For Tenant:

- Cost: Reduce utility costs
- Climate: Improve indoor air quality and comfort
- Comfort: Better heating and cooling

For Societies and Co-ops:

- Cost: Lower operational and maintenance costs,
- Climate: Cut GHG emissions and meet climate targets
- Comfort: Create climate-resilient buildings

Contact us for Free Coaching

Since 2010, our Building & Asset Management team has helped non-profit housing providers maximize rebates, energy savings, and tenant comfort through retrofits. We work with funders across BC and Canada to unlock project incentives.
