Building Condition Assessment

BCNPHA's Building Condition Assessments are the foundation of your capital plan, providing a clear picture of your building's condition and future needs

WHAT IS A BCA?

Building Condition Assessments (BCA) use data to demonstrate the condition of your buildings and equipment. It delivers a visual assessment identifying:

- Condition & remaining service life of each building system
- Building system renewal and replacement projects required to maintain the building in good condition
- Estimated project schedule and cost

WHY DO YOU NEED A BCA?

Plan today for your buildings' future needs. A BCA provides the information you need to prioritize renewal and replacement projects and build a strong capital plan, including:

- Build a strong foundation for your capital plan with reliable baseline data
- Gain a clear understanding of your building assets with a detailed component inventory

BCNPHA RECOMMENDS

- First BCA when building is10 years old or older
- Update BCA every 5 years
- BCNPHA's BCA service offers competitive rates
